QUARTZFORMS

About

The Company

***A group's success is determined
by the harmony and synergy
of all those involved.***

*Der Erfolg einer Gruppe hängt
von der Harmonie und der Synergie
aller beteiligten Personen ab.*

*Il successo di un gruppo dipende
dall'armonia e dalla strategia di
tutti i soggetti coinvolti*

The group was born in 1981, thanks to the passion and artisan expertise of its founder, Domenico Luigi Scapin. Quartz agglomerate arrived on the market in the early nineties: an utterly innovative material with a natural appearance and unparalleled resistance, guaranteeing exceptional performance. We immediately recognised its potential, not least in interior design, and undertook to process and market the new material. In 2010 we launched Quartzforms S.p.A. and acquired a Bretonstone® production facility in Germany, renowned for its excellent compliance with the most stringent safety and environmental standards. Today we offer the public, designers and architects the very best engineered stone, the result of our dedication, creativity and experience. Because the future lies in our roots.

*Die Gruppe wurde 1981 geboren dank
der Handwerkskunst und Leidenschaft
ihres Gründers Domenico Luigi Scapin.
Quarzkomposit kam Anfang der neunziger
Jahre auf den Markt: Es handelt sich um ein
absolut innovatives Material mit natürlicher
Ausstrahlung, das über unvergleichliche
Beständigkeitseigenschaften verfügt und
daher außerordentlichen Ansprüchen genügen
kann. Wir haben das Potential, auch im
Einrichtungsbereich, sofort erkannt und uns die
Transformation und Vermarktung zur Aufgabe
gemacht. Im Jahr 2010 haben wir durch den
Erwerb einer Bretonstone®- Produktionsstätte
in Deutschland Quartzforms S.p.A. gegründet,
die sich durch strikte Einhaltung von
Umwelt- und Sicherheitsstandards auszeichnet.
Heute bieten wir Privatkundschaft, Architekten
und Designern den optimalen Engineered Stone,
entstanden aus unserem Engagement, unserer
Kreativität und unserer Erfahrung. Denn die
Zukunft liegt in unseren Wurzeln begründet.*

*Il gruppo nasce nel 1981 grazie alle competenze
artigianali e alla passione di Domenico
Luigi Scapin, il fondatore. L'agglomerato di
quarzo compare sul mercato nei primi anni
novanta: è un materiale del tutto innovativo,
di effetto naturale, dotato di ineguagliabili
caratteristiche di resistenza e pertanto capace
di garantire elevatissime prestazioni. Ne
abbiamo subito intuito le potenzialità, anche
nell'ambito dell'arredamento, e ci siamo assunti
l'impegno di trasformarlo e commercializzarlo.
Nel 2010 abbiamo creato Quartzforms
S.p.A. acquisendo in Germania un impianto
produttivo Bretonstone® contraddistinto dalla
massima adesione ai più severi standard ecologici
e di sicurezza. Oggi offriamo al pubblico,
ai progettisti e ai designer la migliore
engineered stone, nata dalla nostra dedizione,
dalla nostra creatività e dalla nostra esperienza.
Perché il futuro è nelle nostre radici.*

The harmony between shapes and materials is a requirement of high-end interior design.

Die Harmonie von Form und Substanz ist eine Anforderung der Innenarchitektur auf hohem Niveau.

L'armonia tra forma e sostanza è un requisito dell'interior design di alto profilo.

The Stone Evolution

The aesthetic quality of Quartzforms® slabs is the result of a complex method of processing a precious raw material: quartz composite produced using exclusive Bretonstone® technology. Surfaces made of Quartzforms® are created to maintain their beauty over time. They are the ideal complement to individual and collective environments and spaces where people carry out their activities. The unparalleled features of versatility, resistance and easy maintenance are appreciated by architects, designers and consumers worldwide, also due to an extensive choice of veins, colors and textured mixtures, available in an unrivalled range of collections. Each surface will be unique and extraordinary: an incomparable expression of style.

Der ästhetische Wert der Quartzforms®-Platten ergibt sich aus dem komplexen Verarbeitungsverfahren eines kostbaren Rohstoffs: dem mit der exklusiven Bretonstone®-Technologie hergestellten Quarzkomposit. Die mit Quartzforms® hergestellten Oberflächen sind dazu konzipiert, ihre Schönheit langfristig unverändert zu erhalten und stellen die ideale Vervollkommnung von individuell oder gemeinschaftlich genutzten Räumen dar, in denen der Mensch lebt und seinen Tätigkeiten nachgeht. Die unvergleichlichen Eigenschaften in Hinblick auf Vielseitigkeit, Strapazierfähigkeit und mühelose Pflege werden von Architekten, Designern und Verbrauchern in aller Welt auch dank eines überaus vielfältigen Angebots an Äderungen, Farben und Materialzusammensetzungen geschätzt, das in einer Palette von Kollektionen strukturiert ist, die jedem Vergleich standhält. Jede Oberfläche ist einzigartig und außergewöhnlich: ein unnachahmlicher Ausdruck von Stil.

Il valore estetico delle lastre Quartzforms® deriva dalla complessa procedura di lavorazione di una preziosa materia prima: il quarzo composito prodotto con l'esclusiva tecnologia Bretonstone®. Le superfici realizzate con Quartzforms®, concepite per mantenere inalterata nel tempo la propria bellezza, rappresentano l'ideale completamento degli spazi individuali e collettivi in cui l'uomo vive e svolge le proprie attività. Le ineguagliabili caratteristiche di versatilità, resistenza e facilità di manutenzione sono apprezzate dagli architetti, dai designer e dai consumatori di tutto il mondo, anche grazie a un'amplissima proposta di venature, colori e impasti materici, declinata in una gamma di collezioni che non ha confronto. Ogni superficie sarà unica e straordinaria: un'inimitabile espressione di stile.

The collections

***An instinctive and primordial spirit,
a return to our origins
and to the depths of the past.***

*Eine instinktive und urweltliche
Grundhaltung, eine Rückkehr zu
unseren Ursprüngen und bis in
die Tiefen der Erinnerung.*

*Uno spirito istintivo e primordiale,
un ritorno alle nostre origini
e alle profondità della memoria.*

Intro

The veins and textures of quartz agglomerate slabs perfectly reconnect us with the earth and with what it has to offer us. Quartzforms® collections are the outcome of a meticulous process of research, aimed at creating resistant, lustrous and expressive slabs that evoke the age-old work of nature. Such exclusive and charming surfaces embellish interiors with a new light.

*Die Äderungen und die Texturen der Platten
aus Quarz-Agglomerat verbinden uns auf
ideelle Weise wieder mit der Erde und ihren
Gaben. Die Quartzforms®-Kollektionen sind
das Ergebnis einer eingehenden funktionellen
und ästhetischen Untersuchung mit dem
Ziel der Schaffung von strapazierfähigen,
glänzenden und ausdrucksstarken Platten, die
in der Lage sind, das tausend Jahre alte Werk
der Natur heraufzubeschwören. Exklusive und
verführerische Oberflächen, die die Räume
durch ein völlig neues Licht bereichern.*

*Le venature e le texture delle lastre in
agglomerato di quarzo ci ricongiungono
idealmente alla terra e ai suoi doni.
Le collezioni Quartzforms® sono il frutto
di un accurato processo di ricerca funzionale ed
estetica, mirato alla creazione di lastre resistenti,
brillanti ed espressive, capaci di evocare la
millenaria opera della natura. Superfici
esclusive e seducenti, che impreziosiscono
gli ambienti con una luce inedita.*

OCEAN

Collection

*Even the upper
end of the river
believes in the
ocean.*

William Stafford
Essayist and poet
1914 – 1993

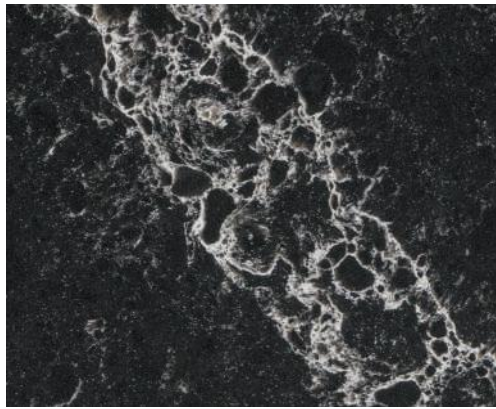

The sound of waves

Just as we ponder the mysteries of the celestial sphere and the infinite galaxies throughout it, or contemplate lush woodlands, so our imagination is drawn to the expanses of the ocean, the depths of the abyss and the hypnotic sound of waves. Such impressions have inspired us to create a collection of expressive and luminous slabs. Contemporary yet timeless, they enhance the environments in which they are placed with a new light. A valuable resource for prestigious and innovative interior design projects.

So wie wir uns Fragen zu den Mysterien des Himmelsgewölbes und der unendlichen Galaxien darin stellen oder unseren Blick über üppige Waldflächen streifen lassen, genauso wird unsere Fantasie von den Weiten der Ozeane, den Tiefen der Meeresgründe und dem hypnotischen Klang der Wellenbewegung angezogen. Diese Empfindungen haben uns zu einer Kollektion von ausdrucksstarken und hellen Platten inspiriert, zeitgemäß, doch zeitlos, die die Umgebungen, in die sie eingefügt werden, in einem völlig neuen Licht erstrahlen lassen. Eine kostbare Ressource für edle und innovative Innendesignprojekte.

Così come ci interroghiamo sui misteri della volta celeste e delle infinite galassie che la punteggiano, o contempliamo le lussureggianti superfici boschive, allo stesso modo la nostra immaginazione è attratta dalle distese oceaniche, dalle profondità degli abissi, dal suono ipnotico del moto ondoso. Queste sensazioni ci hanno ispirato una collezione di lastre espressive e luminose, contemporanee ma senza tempo, che arricchiscono di una luce inedita gli ambienti nei quali vengono inserite. Una preziosa risorsa per progetti di interior design prestigiosi e innovativi.

Back to the roots

After our dreamlike journey through vast expanses of stars, we have rediscovered and enhanced our kaleidoscope of multiform textures offered by the environment around us, so rich in light, depth and life. An ever-changing, endless creative range is reflected in this new collection of expressive, delicately textured luminous slabs inspired by nature and its spontaneous inspirations.

Nach unserer traumhaften Reise in die unendlichen Weiten der Sterne haben wir das Kaleidoskop an Texturen zahlreicher Formen neu entdeckt und erschlossen, das uns unsere Umgebung bietet und das so reich an Licht, Tiefe und Leben ist. Eine unerschöpfliche kreative Palette in ständiger Verwandlung, die in dieser neuen Kollektion von zart plastischen, leuchtenden und ausdrucksstarken Platten Gestalt annimmt, die sich an die Natur und ihren spontanen Zauber anlehnen.

Dopo il nostro onirico viaggio nelle immense distese stellari, abbiamo riscoperto e valorizzato il caleidoscopio di multiformi texture offerto dall'ambiente che ci circonda, così ricco di luce, profondità e vita. Una inesauribile tavolozza creativa in perenne trasformazione, espressa in questa nuova collezione di lastre delicatamente materiche, luminose, espressive, ispirate dalla natura e dalle sue spontanee suggestioni.

Discover

the future

Travel is synonymous of exploration, knowledge and renewal.

We took an imaginary and visionary journey following the routes of the planets.

And we came back with an ambitious, stimulating idea: to turn quartz into beauty.

A unique mineral, expressive and resilient, it's the raw material that puts the shine into the surfaces of the Planet Collection by Quartzforms®.

We've interpreted it in a harmonious range of colors and embellished it with elegant veining patterns inspired by natural stone, making every surface unique, unrepeatable and alluring, for a luxury that's both everyday and extraordinary.

Reisen ist gleichbedeutend mit Forschen, Wissen und Innovation. Wir haben uns auf eine ideale, visionäre Reise entlang der Planetenbahnen gemacht und kamen mit einer ambitionierten und anregenden Idee zurück: Quarz in Schönheit zu verwandeln. Ein einzigartiges, ausdrucksstarkes und kraftvolles Mineral, der Rohstoff, der die Platten der Kollektion Planet by Quartzforms® mit Licht erfüllt! Wir haben ein harmonisches Farbspektrum geschaffen und es mit eleganten an Naturstein inspirierten Aderungen veredelt wodurch jede Oberfläche ein einzigartiges, unwiederholbares und faszinierendes Flair gewinnt, für den außergewöhnlichen aber gleichzeitig alltäglichen Luxus.

Viaggiare è sinonimo di ricerca, conoscenza e rinnovamento. Abbiamo compiuto un viaggio ideale e visionario inseguendo il percorso dei pianeti. Ne siamo tornati con un'idea ambiziosa e stimolante: trasformare in bellezza il quarzo. Un minerale unico, espressivo e performante, la materia prima che rende luminose le lastre della collezione Planet by Quartzforms®. Le abbiamo declinate in un'armoniosa gamma cromatica e le abbiamo arricchite con eleganti venature passanti ispirate alla pietra naturale, rendendo ogni superficie unica, irripetibile e seducente, per un lusso straordinario e quotidiano.

Timeless

surfaces

The quartz agglomerate slabs in the Veined collection are our tribute to the vitality of natural stone, which the immortal Italian sculptors of the past shaped by creating sublime works. The outcome is a collection of timeless, authentic and evocative surfaces.

Die Platten aus Quarz-Agglomerat der Kollektion Veined stellen unseren Tribut an die Lebendigkeit von Naturstein dar, den die unvergänglichen italienischen Bildhauer der Vergangenheit gestaltet und dabei erhabene Werke geschaffen haben. Das Ergebnis ist eine Galerie an zeitlosen, echten und evokativen Oberflächen.

Le lastre in agglomerato di quarzo della collezione Veined rappresentano il nostro tributo alla vitalità della pietra naturale, che gli immortali scultori italiani del passato hanno forgiato creando opere sublimi. Il risultato è una galleria di superfici senza tempo, autentiche, evocative.

Evidence

Man has always wondered about fossil formations, their history and significance. Science has clarified many aspects, but their fascination remains unchanged, as does the aura of mystery that surrounds them. The Fossil collection aesthetically reinterprets this enigmatic natural phenomenon.

Seit jeher stellt sich der Mensch Fragen zur Entstehung von Fossilien, zu ihrer Geschichte und ihrer Bedeutung. Die Wissenschaft hat viele Aspekte geklärt, doch ihre Faszination bleibt ebenso wie die Aura des Mysteriösen, die sie umgibt, unverändert bestehen. Die Kollektion Fossil ist eine ästhetische Neuauslegung dieser rätselhaften Naturscheinung.

Da sempre l'uomo si interroga sulle formazioni fossili, sulla loro storia e sul loro significato. La scienza ne ha chiarito molti aspetti, ma il loro fascino resta invariato, così come l'aura di mistero che li avvolge. La collezione Fossil reinterpreta esteticamente questo enigmatico fenomeno naturale.

available upon request

Glimmering flakes

The pure color of the quartz agglomerate slabs in the Add range is enriched by small glimmers of light from fine fragments of crystal combined with medium-grain quartz. The stone therefore emanates a slight shimmer, making it elegant, deep and attractive.

Die reine Farbe der Platten aus Quarz-Agglomerat des Produktangebots Add wird durch kleine Lichtschimmer bereichert, die durch die kaum wahrnehmbaren Kristallfragmente entstehen, die dem mittelgroßen Quarzgranulat beigemischt werden. Der Stein sorgt so für ein leichtes Glitzern, das ihn elegant, tiefgründig und äußerst ansprechend macht.

Il colore puro delle lastre in agglomerato di quarzo della gamma Add è arricchito da piccoli bagliori di luce, offerti dagli impalpabili frammenti di cristallo mescolati ai chicchi di quarzo di grana media. La pietra emana così un lieve scintillio che la rende elegante, profonda e ricca d'attrattiva.

Powerful memory

The contemporary reinterpretation of a style that was predominant in architecture for many decades of the 20th century. A welcome rediscovery, revived in the quartz agglomerate slabs in the Twinkle collection, illuminated by crystals that enliven the surface.

Die Neuauslegung auf zeitgemäße Art eines Stils, der im 18. Jh. viele Jahrzehnte lang in der Architektur vorherrschte. Eine erfreuliche Wiederentdeckung, die in den Platten aus Quarz-Agglomerat der Kollektion Twinkle, von Kristallen erleuchtet, die die Oberfläche zum Leuchten bringen, neu auflebt.

La reinterpretazione in chiave contemporanea di uno stile che per molti decenni del 900 è stato imperante in architettura. Una gradita riscoperta, che rivive nelle lastre in agglomerato di quarzo della collezione Twinkle, illuminate da cristalli che ravvivano la superficie.

The concrete nature of quartz

Spacco slabs also develop a third dimension. They are simple elements that acquire an interesting three-dimensional effect reminiscent of rough stone from a quarry. These elements convey a pleasant sense of concreteness and solidity that is intrinsic to Quartzforms® stones.

Die Platten Spacco verlaufen auch in der dritten Dimension. Es handelt sich um einfache Elemente, die eine interessante dreidimensionale Wirkung vermitteln, die an direkt aus dem Bergwerk kommenden, unbehandelten Naturstein erinnert. Diese Elemente vermitteln ein angenehmes Gefühl von Konkretheit und Festigkeit, ein Merkmal, das den Werkstoffen von Quartzforms® eigen ist.

Le lastre Spacco si sviluppano anche nella terza dimensione, sono elementi semplici che assumono un interessante effetto tridimensionale che ricorda la pietra grezza uscita dalla cava. Questi elementi trasmettono un piacevole senso di concretezza e solidità caratteristica intrinseca dei materiali Quartzforms®.

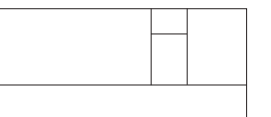

PEBBLE

Souvenir

The main characteristic of the quartz agglomerate surfaces in the Pebble collection is a rich and distinct texture, comprising grains that vary greatly in size and in shades of color, thus evoking the varied appearance of the stones of a riverbed.

Die wichtigste Eigenheit der Oberflächen aus Quarz-Agglomerat der Kollektion Pebble liegt in der üppigen und ausgeprägten Körnung, die sich aus Körnern verschiedener Größen in zahlreichen Farbabstufungen zusammensetzt, die den vielfarbigen Aspekt der Steine in Erinnerung rufen, die in Flussbetten zu finden sind.

Il principale requisito delle superfici in agglomerato di quarzo della collezione Pebble consiste nella ricchezza e nell'incisività della grana, composta da chicchi di diverse dimensioni in numerose gradazioni cromatiche, che evocano l'aspetto variegato delle pietre che pavimentano il letto dei fiumi.

Technical Info

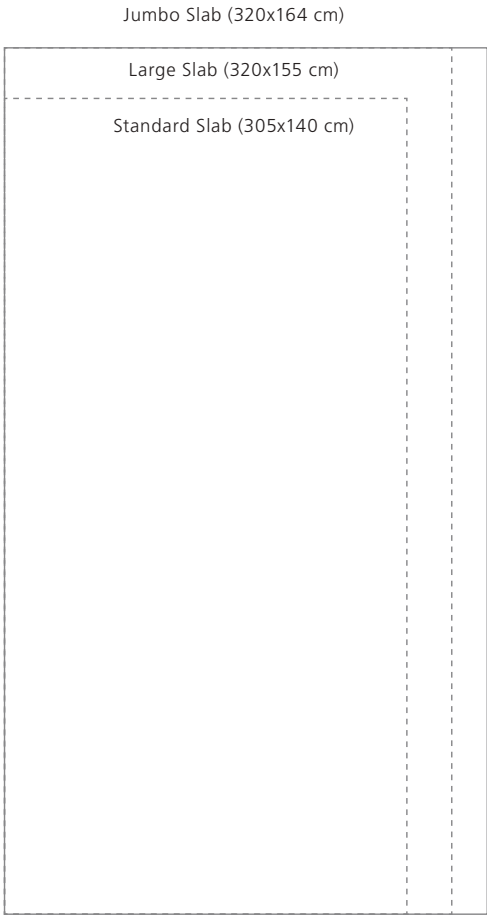

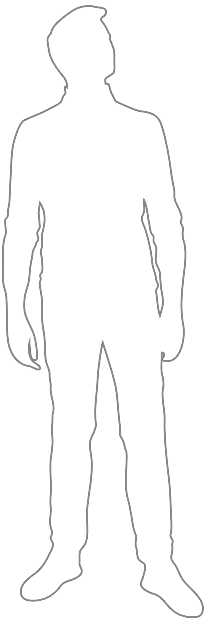

DIMENSIONS

	Slabs dimension	Standard Thickness	Weight*
Standard Slab	305 cm 140 cm - 120" 55" (4,27 sqm - 45,96 sqft)	1,2 cm - 1/2" 2 cm - 3/4" 3 cm - 1 1/4"	125 kg - 275 lb 208 kg - 459 lb 312 kg - 688 lb
Large Slab	320 cm 155 cm - 126" 61" (4,96 sqm - 53,39 sqft)	2 cm - 3/4" 3 cm - 1 1/4"	240 kg - 529 lb 360 kg - 794 lb
Jumbo Slab	320 cm 164 cm - 126" 64,5" (5,25 sqm - 56,51 sqft)	2 cm - 3/4" 3 cm - 1 1/4"	258 kg - 569 lb 387 kg - 853 lb

*Indicative weight, variable according to the specific weight of the slab.
